

D.M.A. IN KEYBOARD PERFORMANCE AND PEDAGOGY

Overview

If you are an accomplished pianist with curiosity and open mind to delve into the study of piano pedagogy to further performance and teaching aspirations, then this is the place for you. In addition to majoring in Keyboard Performance and Pedagogy at the DMA level, there is an option for DMA non-pedagogy students to choose a 12-credit Cognate in Keyboard Performance and Pedagogy.

DMA in Keyboard Performance and Pedagogy consists of 60 credit hours of graduate study beyond the Master of Music in piano-related degrees such as solo performance, pedagogy, or collaborative piano. It is designed to prepare students for varied professional settings such as performance, research, or college teaching.

Consistent with our school-wide belief in the value of “experiential” learning, our graduate curriculum in Keyboard Performance and Pedagogy (KPED) is uniquely designed to integrate theoretical studies with performance to the maximum extent possible. All KPED students will have the opportunity to request for performance study with any one of our piano faculty members, and our flexible curriculum affords customized program of pedagogical study based on background and interest of each student. Students are strongly encouraged to select a 12-credit Cognate area of study (such as Music Theory, Musicology, or Music Education), which would further enhance credentials for the current competitive job market.

In addition to traditional pedagogy offerings—covering topics such as historical and modern private teaching methodologies, didactic repertoire and sequencing, diagnostics, group piano teaching, injury prevention, and peak performance strategies—our curriculum strives to reflect the most current needs as well as resources gleaned from the job market and related disciplines. For example: students may learn about pianist-specific professional preparations including effective use of technology and higher-education teaching, or learn from the rapidly growing field of cognitive neuroscience as it relates to practicing, performing, and teaching.

A wide variety of options exist for hands-on teaching and learning, and our Preparatory Division provides the platform for those interested in a teaching internship for young students. Research ability is deemed an essential skill for graduate-level study. Students have the opportunity to hone their skills in critical thinking and independent research both through various courses in addition to the culminating DMA project.

The competitive reality of the market for performers and teachers has never been more demanding. We are proud that many of piano students (both KPED and MKP) have gone on to win awards at piano competitions, have been invited to publish in recognized periodicals or present at conferences, and are currently in teaching positions both in the U.S. and abroad.

Admission Requirements

All applicants to the Frost School must submit the following items:

- An online application
- Application fee
- Resume
- Three letters of recommendation
- Official transcripts from every post-secondary school attended

This graduate degree program also requires submission of certain supplemental materials, including:

- Teaching sample
- Prescreen/performance
- Live audition (preferred)
- TOEFL/IELTS score, as applicable

For more detailed information, please visit our Graduate Admission website (<https://admissions.frost.miami.edu/graduate/>).

Curriculum Requirements

Code	Title	Credit Hours
Keyboard Pedagogy and Performance		
Select 24 credit hours of Keyboard Pedagogy and Performance courses ¹		24
Creative Activities, chosen in consultation with advisor		12
MKP 832	Doctoral Recital **	
MKP 831	Doctoral Project *	
Other Studies in Music		
Select four of the following:		12
MCY 627	Keyboard Literature II	
MCY 728	Music Bibliography	
MED 662	Psychology of Music I	
MED 762	Music Learning and Curriculum	
MED 763	Music Research Methods	
MED 764	Music Assessment	
MTC 717	Analytical Techniques	
Cognate/Electives		
Select 12 credit hours of Cognate/Electives		12
Total Credit Hours		60

¹ Graduate Keyboard Performance and Pedagogy courses chosen in consultation with the Doctoral Advisor and approval of the student's committee during the first semester of course work.

*Doctoral Project options include the Doctoral Essay or the Lecture Recital with Research Paper

**Minimum 1 performance recital must be completed

***Doctoral Qualifying Exams must be complete prior to the defense of the Doctoral Project proposal.

KPED Plan of Study

Year One		Credit Hours
Fall		
MKP PI7	Piano	2
MTC 717	Analytical Techniques *	3
Approved KPED Course		3
Choose 1 credit from the following:		1
MKP 710	Seminar in Baroque Performance	
MKP 711	Seminar in Classical Performance	
MKP 712	Seminar in Romantic Performance	
MKP 713	Seminar in Contemporary Music	
MKP 750	Keyboard Pedagogy Research Seminar	
MKP 780	Keyboard Pedagogy Internship	
MKP 791	Accompanying, Level III	
MKP 831	Doctoral Project	1
Credit Hours		10
Spring

MKP 791	Accompanying, Level III		
MKP 831	Doctoral Project		4
			Credit Hours
			10
			Total Credit Hours
			60

* One MTC course at the 700 level should be taken during the first year of study to satisfy the MTC portion of the Qualifying Process for MKP DMA students.

** If choosing to play a third recital, replace the last 2 items with 2 credits of MKP 832 Recital, and adjust the third year spring courses accordingly.

*** This is a suggested Plan of Study. Your actual course sequence may vary depending on your previous academic experience as well as current course offerings. Students should meet with their academic advisor each semester to determine the appropriate course selection.

**** Doctoral Qualifying Exams must be complete prior to the defense of the Doctoral Essay/Dissertation proposal.

Mission

The mission of the Doctor of Musical Arts degree in Keyboard Performance and Pedagogy is to educate students in:

- Teaching strategies for all levels of piano students
- Knowledge of methods, materials, and standard teaching repertoire for all levels of piano students
- Career preparations for college-level teaching as a pianist including professional development and use of technology

- The performance of piano, building musicianship and technical ability to an advanced level
- Research skills on original topics in the field of keyboard pedagogy

Goals

Graduates of the program are prepared for careers as college or university faculty, performers, and teachers/proprietors of private and group teaching studios.

Student Learning Outcomes

- Students will synthesize musicianship and technical ability to an advanced level of piano performance.
- Students demonstrate effective research skills in the field of keyboard pedagogy and improve writing skills to prepare for the final project, and eventually, professional presentations beyond the program of study.
- Students will demonstrate the practical career-related knowledge requisite for college-level teaching as a pianist. The topics include professional development, classroom teaching preparation, and use of technology.
