

MINOR IN ARCHITECTURE

Overview

A minor in architecture is available to non-architecture majors as an option in the undergraduate architecture program. The purpose of the minor is to provide a general understanding and appreciation of the discipline of architecture. The minor does not satisfy professional requirements in architecture but does offer an introductory basis for further study at the undergraduate or graduate level. The program requires 12 credit hours in architecture courses.

Curriculum Requirements

Twelve architecture credits from the following list of courses may be taken to complete the requirements for the minor.

Code	Title	Credit Hours
Select 12 credits from the following:		12
