

B.B.A. IN ECONOMICS

Overview

Major Area of Specialization in Economics (People & Society or STEM)

The Bachelor of Business Administration in Economics equips business students with solid economic theories and data analysis techniques supporting critical thinking to deal with a wide range of modern economic problems. Economics majors are successful in a large variety of careers: corporate world, consulting, government, not-for-profits, international agencies, law, as well as graduate studies and academic roles.

Miami Herbert Business School students who wish to pursue the Economics major area of specialization will choose between two tracks: Political Economy (P&S) or Quantitative Economics (STEM). In the Political Economy track, People and Society courses are predominant. In the Quantitative Economics track, Science, Technology, Engineering, and Mathematics courses are predominant.

Curriculum Requirements

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BBA in Economics must complete the BBA Business Core and the specific coursework for one of the Economics major tracks as follows:

¹ **NOTE:** WRS 105 and WRS 106 or ENG 106 , or their equivalents, must be completed prior to attaining junior year classification, per the University General Education Requirements. Additionally, all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

² At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the Vice Dean for Undergraduate Business Education.

³ Students who do not earn at least a C- in WRS 106 or ENG 106 (<https://miami-curr.courseleaf.com/search/?P=ENG%20106>) must either repeat WRS 106 or ENG 106 and earn at least a C- or complete WRS 230 with at least a C- before enrolling in BUS 300 (<https://miami-curr.courseleaf.com/search/?P=BUS%20300>).

⁴ All specific coursework for the major in Economics must be completed with a grade of "C-" or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the major area of specialization.

All courses must be taken within the current pre-requisite structure.

⁵ Course pre-requisites vary by course.

⁶ MTH 161 or its equivalent and ECO 302 are required for Quantitative Economics.

Sample Plans of Study

This Sample Plan of Study represents one possible version of a new freshman Business student's 8-semester plan. The individual student's plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the Miami Herbert Business School and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the Business School.

Students construct their individualized plans in collaboration with their assigned academic advisor.

Mission

- To develop innovative ideas and principled leaders that transform global business and society.

Goals

The Business Technology major is designed to provide the student with the key information technology and management skills needed in today's business environment, plus a firm grounding in the primary business areas in which these skills will be applied. Graduates of the program may qualify for entry-level positions as systems and/or information analysts, information security specialists, consultants, user support analysts, programmers, or other information management positions.

Student Learning Outcomes

- BBA/BSBA graduates will be critical thinkers, able to select and apply appropriate models, tools, and techniques, and frameworks to enable them to render analytically sound business decisions.
- BBA/BSBA graduates will be able to identify, analyze and resolve ethical issues in business scenarios.
- BBA/BSBA graduates will demonstrate professional written communication skills.
